A National Park created to protect, welcome and educate

Birth of a new generation national park

18 April 2012 (signing of the decree)

La Calanques National Park was created on 18 April 2012 by Prime Minister Jean-Marc Ayrault, becoming France’s 10th national park. Calanques National Park has only existed for a few years, but its area makes it the 5th most visited national park in France, in terms of visits and per unit area.

The park is also unique because it is still in history. In the early 20th century, a number of sandstone deposits were discovered to be pear-shaped in the area around Cassis, and Calanques National Park was established in 1933 by the 35th Ouest Association.

In the light of the new park created by its popularity to France’s second largest city (urban development, pollution, business people). It is unique because it is still in history. In the early 20th century, a number of sandstone deposits were discovered to be pear-shaped in the area around Cassis, and Calanques National Park was established in 1933 by the 35th Ouest Association.

The Calanques National Park is:

• The only national park in the Mediterranean to have continental, insular and marine sections

The Calanques National Park: identity Card

Creation of the national park

18 April 2012 (signing of the decree)

Location

Bouches du Rhône (department 13)

The Calanques National Park: a natural and cultural treasure of the Mediterranean

In deeper waters, the sub-surface is characterized by an abundance of marine organisms which often make up a significant part of the food web. This is because these areas often provide a rich biodiversity and are sheltered from the effects of wind and wave action. They also provide a suitable habitat for a variety of marine species.
The main rules in the national park core

A national park is an exceptional site, where everyone is welcome to discover nature and culture. It is aimed to ensure conservation of nature and the site's tranquility with public activities, special rules are in force in the park's core zones.
